EXPERIENCE

Technology Analyst
Mätch VC (Remote) ↗
02/2026 - Present

- Evaluated AI startups and emerging technologies across Europe and Southeast Asia.
- Conducted technical due diligence on software products, AI infrastructure, and engineering teams.
- Prepared investment research reports covering market trends, competitive positioning, and product differentiation.
- Collaborated with investment professionals to identify high-potential technology companies.

DT Excellence Center Project Intern
Deutsche Telekom IT Solutions ↗
09/2025 - 12/2025

- Designed a Microsoft Teams chatbot for one-click and multi-step surveys
- Implemented an end-to-end survey flow prototype using Python and external voting APIs, state management, and user input handling, demonstrating feasibility of in-chat voting workflows.

Project Intern
Ministry of Post and Communication ↗
06/2025 - 08/2025

- Conducted field research and factory visits with 8 local producers to enable the practical design of visibility and income-growth solutions.
- Propose & present 2 initiatives (1-day tour & digital map, Phnom Penh walk street).
- Published awareness article on Takeo products, increasing public interest & support.

EDUCATION

Computer Science
University of Pécs
09/2024 - 04/2027
Bachelor's degree

SUMMARY

Technology-focused Computer Science student with experience across software engineering, artificial intelligence, and venture capital analysis. Skilled in developing AI-driven applications while evaluating emerging technologies, startup opportunities, and market trends. Built innovative solutions in accessibility, language technology, and digital platforms, with recognition through international innovation competitions and sustainability-focused programs. Passionate about leveraging technology to create scalable solutions with meaningful social impact.

SKILLS

Python
Java
JavaScript
PostgreSQL / SQL
Spring Boot
REST APIs
Problem Solving
Natural Language Processing (NLP)
TensorFlow / Keras PyTorch
Analytical Thinking
Research & Data Analysis
Project Management
Entrepreneurship / Innovation
Team Collaboration
